Taal, Pulilan, Bulacan 3005

Aspiring IT professional with a specialization in web and mobile app development, driven by a passion for crafting seamless, user-focused digital experiences. Eager to bring fresh perspectives and technical expertise to an internship role while contributing to meaningful projects that make a difference.

Education Level

Bulacan State University – Main Campus – City of Malolos, Bulacan **2021- Present**
Bachelor of Science in Information Technology
Major in Web and Mobile Application Development
Relevant Coursework: Web Development and Design, Mobile Application Development and Design, Front-End Technologies, Back-End Development, User Interface (UI) and User Experience (UX) Design

Academic Projects

GUIsq **2023- 2024**

- Developed a web-based system to modernize record-keeping, improve communication, and manage member data for the Christian Bible Church of Hagonoy (CBCH). The system addressed issues related to data loss, communication delays, and member tracking using secure digital storage, automated announcements, and customizable dashboards.
- Developed a management system using React.js (frontend), Node.js and Express.js (backend), and MongoDB (database).

Company Training

Salesforce Philippines **2023**
Admin Trainee

- Trained as an Admin trainee for 3 months, gaining hands-on experience in managing Salesforce tools and systems.
- Admin Superset

Organizational Experience

College of Information Communication Technology Local Student Council **2023-2024**
Vice Governor

- Served as the head of the Local Legislative Body of Local Student Council.
- Led board members and review and approved their project and event proposal for the college.

College of Information Communication Technology Local Student Council **2022-2023**
Board Member

- Proposed projects and events for the council and the college.
